

# A magical week in Damanhur (Italy)

## Damanhur - a laboratory for the future

Damanhur is a *collective dream* transformed into reality thanks to the creative power of positive thought. It is a laboratory for the future, a seed that has been growing for over thirty years, constantly transforming and renewing itself so as to bring to life the reality its citizens together dreamed of and built.

Damanhur is a worldwide source of inspiration for how to realize dreams.

Innovation and values, health, social structures, spirituality and respect for nature, rediscovering ancient traditions and technological research are some of the fields that are important for them. They do voluntary work to support a positive world.

Thinking about the future in a positive way and translate ideas into actions and concrete success are essential steps to build a new culture of peace.

Join and experience this special group of people in the magical week.
